ROME, April 3.—One trainhand was billed in a complicated wreck near here early today. While a westbound freight train on track number 3 of the New York Central railroad was taking water at the plug about three miles cast of this city, the shifting ensine from Utlea came up behind and stood waiting. Within a few moments another westbound freight came along and ran into the light engine which in turn was sent crashing into the forward freight. Just at this moment the western New York express number 33, also westbound, came upon track number 2 and side-swiped the wreck.

Michael Bassett, the fireman on the fight engine who was out on the running board oiling the engine, was caught in the wrecked. The passenger train was wrecked. The passenger train struck the bridge tower, nearly demoishing it. All four tracks were blocked. The wreckage took fire but the railroad men soon extinguished the blaze.

The passengers on the express were bally shaken up but no casualities are reported.

BURGLARS

NEW YORK, April 8.—Burglars in Singae, N. J., last night took no chances of their safe-blowing operations being interrupted in a thickly settled neighborhood. They broke into the general store of E. L. Klotz, nauled his safe containing \$200 in cash out on a platform in backed up one of the store-keeper's own wagons and removed the heavy object to the secluded corner of a lumber yard. There they drilled the safe at their leisure and blew it to pieces with charges of dynamite without Members Admitted at anyone being the wiser until today. The burglars got away with the cash and so far have not been traced.

COL. CODY'S DENIAL

today was the reception of seven candidates to full membership in the conference. The men admitted were: Lewis Wright of Gardner; Francis W. Brett of Lunenberg; Andrew Bixler of Upton; W. S. Colgrove of Swampscott; Henry La Leech of Brookfield, William H. Gibert of Cliftondale and George E. Heath of Boston. Later Muring the session Bixloou Luther R. Wilson, the presiding officer of the conference delivered an address to the new members in which he advised them to be loyal to the church and its discipline and in which he outlined their duties. He also cautioned them not to make it hard for men to believe in their doctrine but to make it casy.

Trinity church of Springfield and the Harvard street church of Cambridge extended their invitations for next today. As the committee were resumed tyefr's conference, Both invitations were to remisider forther evidence in behalf. NEW YORK, April 8.-Col. William F. Cody today declared that a despatch from Cody, Wyo., saying he had denied the reported reconciliation between himself and Mrs. Cody was erroneous and entirely without foundaion. The colonel stated that his relations with Mrs. Cody were not amicable and satisfactory and said he had sent no such letter as that referred to in the despatch from Cody.

INSPECT SALOONS

The board of police will next week make a tour of inspection of the various places where applications have been made for liquor licenses, and either during the latter part of the week or the first part of the following week licenses will be granted.

Undoubtedly the board would have advertised the applications much earlier and also granted the licenses but for the fact that the "Bar and Bottle Bill" before the legislature at the present time will have considerable effect on the licenses if it is adopted.

It will take at least two days, and in all probability three days, to visit all the saloons, and after the places have been viewed it will take several days to consider the applications. According to the law licenses cannot be granted until at least ten secular days from the time of advertising have

TOLEDO, O., April 8.-Myron L. Case, president of the Imperial Window Glass Co., indicted yesterday at Pittsburg by a federal grand jury on the charge of violating the Sherman anti-trust laws, made the following statement to the Blade today from his home in Bowling Green, 0.:

"The charge made against us that we have been in a conspiracy in restraint of the hand-blown window glass trade is untrue as are the other two charges of illegal competition and monopolization of inter-state trade.

"We have not raised the prices of window glass 50 or 60 per cent. as reported but only about 25 per cent., and we were justified in doing this since we have raised the wages of the men 23 per cent. We do not have an agreement with the American Window Glass Co. or any other concern.

"There are eleven factories in the country that were not taken into the Imperial Window Glass Co. but I don't think they had anything to do with the investigation, because the organization of our company helped to give stability to the trade and our existence was a good thing for them as well as for the concerns we absorbed."

April S.—Battling Nelson, the former lightweight champion of the world, lost another fight yesterialy when he was knocked out in three minutes by a jury in the Inteel States circuit court, which decided against him in his suit for \$10,000 damages against the Bellevue-Strattord hole! for refusing him accommodations. The trial begun Wednesday and it took the jury only 180 seconds to find the verdict for the hotel.

Counse! for the hotel in examination told Nelson that he had persistently violated the laws of some states by highting, and he replied that they were boxing exhibitions. The only real prize fight he was ever engaged in, he said, came off in Nevada, where there was no state law against the sport.

Indge Holland, in his charge to the jury, said that if Nelson had violated the laws of any state which prohibited prize fighting, then under the law he was undestrable as a guest.

tes of men where things apart from church life were discussed were tooked upon as being beyond all limits of good form. But the social life of the church was of vast importance, he declared. Baptists didn't need talking to so much on the matter as did Congregationalists. He spoke of the cold church, of the cold congregation which did not give to strangers a welcome and said that it had been his experience that churches as a rule were warm, but that occasionally a church like an individual would fail to show cordiality.

Reports for the year were read hyarious officers and heads of committees. The report of the ireasurer showed \$86 in the treasury, with all bills paid. H. E. Davis, secretary; F. J. Flomings, chairman of the reception committee; H. E. Davis for Abloor F. Swanton for the entertainment committee; Benjamin O. HETTY GREEN

IS REPORTED TO BE IN POOR HEALTH

NEW YORK, April 8.—Notwithstanding assurances that Mrs. Hetty Green is in her usual health, she was seen to lean heavily on her sen's arm at one side and her daughters arm at the other, when she alighted yesterday from a taxleab to visit her effices in the National Park hank building for the first time in a week. Mrs. Green remained down town but two hours and then returned to the home of her daughter, Mrs. Matthew Aster Wilkes.

Col. H. R. Green, her son, said this afternoon that his mother 'had been taking a wacation,' and scoffed at the idea that he is to assume the management of her affairs. He will return to Texas shortly.

men representing the boards of trade of Lowell, Lawrence, Haverhill, Salem and Nashua and Manchester, N. H., held a conference with Pres. Lucius, Tuttle of the Boston & Maine railread, at the latter's office in the North station, Boston, yesterday relative to freight transportation in the cities of

the Merrimack Valley, President Tuttle after hearing their President Tuttle after hearing their grievance explained present conditions and stated that the best way to remedy defects in the system was by personal and individual solicitation to him alone and not through a delegation offering generalities rather than dates and facts. Pres. Tuttle also stated that the road was at the present time enlarging its freight facilities at the Boston yards by the creation of a new freight house for the sole handling of southern division freight. He assured the delegation that their complaints would be taken up at once and

assured the delegation that their complaints would be taken up at once and remedied in so far as they lay in the power of the road to do so.

He also promised the Lowell delegation that he would personally look into the matter of replacing the Western aveaue and Thorndike street freight houses with one large freight centre for the handling of local traffic.

The conference was arranged through the efforts of Sec. McKeuna of the board of trade and the delegation consisted of three men from each of the cities interested, James O'Sullivan, Fred C. Garrett of the White store and Sec. McKeuna, representing Lowell, Although the different baston commercial organizations were invited to send delegates none put in an eppearance. Henry A. A delegation of about 25 business | Vice President James O'Sullivan acted Vice President James O'Sullivan acted as spokesman for the delegation and presented each speaker in turn to Mr. Tuttle, who listened attentively to all that was said, at times interjecting questions and comments. After the delegation had presented its case, Pres. Tuttle talked for some 15 or more minutes on the problems of the Boston & Maine railroad as they affected the freight traffic of the Merrimack valley, and how the officials of the road intended to solve them.

The Conference Opened

The Conference Opened The conference Opened

The delegation was unanimous in the statement that the transportation of freight between Boston and points in the Merrimack valley, especially outward bound freight, was unsatisfactory. Delegates from Manchester and Nashna complained of the service between those cities and points in Connecticut and New York city, though they admitted that in some things the service had been improved.

The delegates from Salem complained

The delegates from Salem complained of through traffic by rail or by bout and rail, between Salem and New York. The freight bound for Salem and theverill had been delayed frequently, they claimed.

No remedy was suggested by the delegates, that matter being left to the railroad officials.

A. B. Sutherland presented Lawrence's grievances, while the troubles of the Haverhill business men were described by Albert M. Child. A. J. The delegates from Salem complained

VGORAS

Once and for all I wish to deny the baseless, unwarranted rumor that has spread throughout New England during the past few days. This concern has absolutely no connection with the Standard Oil Co. The name MITCHELL THE TAILOR is not another name for the Standard Oil Co. The Standard Oil Co. does not control this business; it does not control part of the business; it does not control one dollar's worth of the business.

Nor is my chain of stores in New England's principal cities directly, indirectly or remotely connected with, or related to, any chain of drug stores, cigar stores or restaurants by any system of finance, management or business arrangement. Now we ought not to hear any more talk about the Standard Oil owning the Mitchell The Tailor, chain of stores.

Mr. Mildram of Boston moved to substitute for an adverse report a bill prohibiting public exhibitions of indecent statues of the human form.

Mr. Holds of Worcester said the bill is unnecessary, because the only place where statues are exposed is the Boston art museum and there the regulations are such as to prevent injury to the morals of the young. Representative C. L. Carr of Boston favored the bill, agreeing to offer an amendment to make it prevent exhibitions to children 16 years of age or under. Substitution was defeated, however, on a rising vote, 41 to 64, and a roll call was refused, and Mr. Mildram gave notice of a motion to reconsider today.

Extraordinary Sale of 41 Car Loads Of

Furniture, Ranges and Carpetings

THE BANKRUPT STOCK

J. Brest Co. Inc., of Brockton, Mass. SALE OPENS TOMORROW AT 9 A. M.

This company had a capital of \$40,000 and carried a stock second to none in Brockton.

The buying of this entire stock was undoubtedly one of the largest purchases ever carried through by a local firm. We had a tremendous four weeks' sale in Brockton, closing with a two days' auction sale, at which we cleaned out all undesirable goods, so that the 4 1-2 car loads we shipped to Lowell were mostly goods that had never been unpacked and are fresh, clean and up-to-date. We bought this stock for over \$8,000 less than the regular wholesale cost price. So that we can and will sell everything in this stock. Parlor Suits, Fancy Chairs and Rockers, Parlor Tables, Sideboards, Buffets, Extension Tables, Dining Chairs, Brass and Iron Beds, Springs and Mattresses, Pillows, Magee Ranges, Art Squares, Rugs, Linoleum, Mattings, Carpet Sweepers, Wringers, Clocks, Baby Carriages, Go-Carts, etc.

At 25 to 33¹ Per Cent. Less Than Regular Prices

This was a fortunate purchase for you as well as ourselves. What the creditors lost we will divide with you, making a great saving for you and a good profit for ourselves. There is one thing we want to say here—you will have to be patient with us at this sale, as having purchased our spring stock previous to buying this Bankrupt stock, our store is overcrowded and we shall not be able to show a tenth part of the stock at one time, but we will take goods out of the storehouse as fast as you will buy it. There is plenty of it, but at the price we shall sell, it won't stay long on our floor. And once sold, we or no other dealer can sell you housekeeping goods that we pay full price for, at less than one-quarter to one-third more than we can sell this Bankrupt Stock, so don't delay. First come gets first choice.

HOW TO CURE A TERRIFIC HEADACHE

Many people suffer with an aching head eek after week, occasionally getting relief from so-called headache powders and nerve stupefying drugs. They never get cured because they start wrong. Such people should do a little commonsense thinking. Headache is simply the result, a warning signal, of a far more serious trouble. Usu-ally it means bad blood poisoned by an inactive or sluggish liver. Headache sufferers are often nervous, cross and irritable, Their sleep is disturbed and digestion impaired. The liver doesn't do its work right, and the bile elements poison both nerve

and brain.
Smith's Pincapple and Butternut Pills Smith's Pincapple and Butternut Pills remove the cause of headache. They are Nature's true laxative, and give tone to liver activity, are a positive specific for biliousness and a torpid liver. Get your liver right by using Smith's Pincapple and Insternut Pills and your head won't ache, your nerves won't weaken, nor your food distress you. Physicians use and recommend. They form no habit. You should always keep them on hand. These little Vegetable Pills will ward off many ills.

New York likewise, finds its buslost street in the one diagonal Broadway and buries its fine buildings in nerrow groaves. Philadelphia and Salt Lake City, with griding and Salt Lake City, with griding and Salt Lake City, with griding and fine showing the plans of the diffes on the screen he bointed out how Baltimore had placed streets that were diagonal. Washington he called the best example of theroughly convenient diagonal lines in every direction. The lesson it that such a plan is convenient. Lowell and Boston could not have such a plan. The Lord never intended such plans for Lowell.

Speaking of the cities of France and Germany Mr. Shurieff stated that while Paris and the French scheme are undoubtedly beautiful. Germany is far in the lead for natural heavity of cities. Curving and diagonal lines and circumferential or radial streets are first. A curving street is a valuable possession for Lowell. The Germans would like the Lowell and Boston streets, with their curves and crookedness, because they give buildings an opportunity for display and make traffe better handled.

A map of Hamburg was shown as a copied of the completion for citizens of the terms around Boston. In speaking of the metropolitan district theory are 30 citizens of the terms around Boston.

better handled. A map of Hamburg was shown as a district there are 39 ellies and towns where each town has a typical plan. They are all allie. They have no provision for proper through traffic. In the course of time, unless some uniform development is undertaken in each town there will be a constriction of traffic which will retard development, not only of the town but of Boston as not only of the town but of Boston as the center. Boston itself has the same difficulty in the heart of the city. State street is approached from two directions. From one street come 51 teams and from the other come 50 teams and State street is able to handle but 28 teams. The result is bad. It needs to be remedled. Tremont street is but a primitive town street in size and yet carries traffic of enormous proportions.

He cited Boston streets as an example of too narrow construction and declared 48 and 50 foot streets are not fit for a city, but that a 60 foot street is better. Lowell is full of impossible streets and bad ones, but the question here is the same as that everywhere else, and that is the willingness of the people to pay for the improvements and whether the people will allow the bad streets to prevent development of a city's business.

The speaker also referred to the practice in the Metropolitan district towns and cities of permitting men to develop their own tracts of land without reference to the chance for other development in the vicinity. Streets are laid out with no idea of ever connecting with other streets and the result is an impossible maze of disjointed connections which impair the chance for properly developed street systems. The Individual is put above the community.

The speaker in conclusion showed a number of pictures of civic centres. He felt that he had accomplished something if he had brought out his main thought that cities should be laid out not on the gridinon plan but onterly with a view to the variations in

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

The sworn daily average circulation of The Lowell Sun for the year 1909 was

16,828

Sworn to by John H. Harrington, proprietor, Martin H. Reidy, business manager, and Alfred Pilotte, pressman, of The Sun, before me, January 1, 1910.

J. JOSEPH HENNESSY, Notary Public.

This is by far the largest average circulation of any newspaper in Lowell.

According to the report of Bradstreets on the record of prices it appears that during the month the prices of all the leading staples was stationary and that some household necessities showed a slight decline.

Mrs. Maud Bullington Booth suggests that a small bell be fastened by a ribbon to the neck of the house cat to give warning of the feline's approach to the thrushes, the robbins and other birds that add to the life and attractiveness of our gardens. That might save the birds but it would also save the mice and an occasional rat.

VAHEY OR FOSS.

Mayor Fitzgerald of Boston comes out flatly in favor of Foss for governor as apposed to Valley. He says and very trafy that the party is bigger than any man and that no man for selfish reasons should jeopardize the party chances of victory, for a democratic victory in Massachusetts this year will mean much to the country at large. The people, however, will decide whether they want Vahey or Foss if the latter consents to be a candidate, which at this time is by no means certain.

DATE OF ASSESSMENT APRIL I.

The residents of Lowell and other Massachusetts cities will do well to remember that the assessors this year started work on April 1, instead of May I as in former years. It will, therefore, behoove those who wish to be sure of assessment to notify the assessors of their whereabouts this month. Voters will be registered on their residence on April I instead of May 1, and from that date also the tax for personal and other property will date.

If voters would cooperate with the assessors there would not be so many names dropped from the list nor so much work afterwards for the politicians and the board of registrars.

PREMIER ASQUITH'S POLICY.

Premier Asquith of England has outlined a policy which seems to have united the various sections of his conlition ministry and has guaranteed him continuous support for several months to come. The resolutions against the veto of the house of lords have apparently pleased the home rulers, the labor party and the liberals. A motion to amend the resolutions was defeated by a majority of 106 which shows that the ministry has a loyal majority sufficiently large to insure its continuance in power for

One of the great mistakes apparently that the ministry has made was to attack the royal-prerogative or the veto of the sovereign. However the parties may feel in regard to the veto of the lords they have no intention of attacking the velo of the sovereign which the premier says is as dead as Queen Anne. That is true but the British people are nevertheless very jealous of any attack or attempt to minimize the powers of the sovereign. They want the king to possess the royal prerogative that has been handed down from his predecessors, and they will not countenance any movement to minimize his power. It is, therefore, rather unfortunate that Premier Asquith has attempted to attack the royal veto. It seems to be a matter that will weaken his power with the country at large and will undoubtedly assist the lords in their battle with the commons. If as Asquith says the veto is dead why bother about it? Why invite a widening of the quarrel in which the outcome is still uncertain? Why should be disturb a quiescent for at a time when he has all he can do to handle the

SIGNS OF REPUBLICAN REVOLT.

The republican party of Indiana may be ranked as having joined the republican insurgents inasumch as it has given very grave offence to the national leaders on account of having held a state convention and adjourned without endorsing the Payne-Aldrich tariff law.

So far from endorsing the new tariff law, the spellbinders of the couvention actually criticized it. Senator Beveridge, speaking of the increase in the cotton schedule, said, "for an increase of daties on cotton cloth, the higher grades of which are used as clothing by every man, woman and child, rich or poor, throughout the whole republic. I could not stand for that without evidence; and when the manufacturers themselves formally declared before the house committee that their business was thriving, their labor employed and that all they asked was that the tariff on cotton should not be decreased. I stood against those increases on ention goods when the schedule was voted on; I stood against them when the bill was passed and I stand against them now."

Was it any wonder after such an appeal that the convention made the following declaration on the tariff: ~

"We believe in a protective tariff, measured by the difference between the cost of production here and abroad, Less than this is unjust to American laborers; more is unjust to American consumers. That difference should be ascertained with the utmost speed and the present law modified accordingly,

This does not necessarily mean the difference in labor cost alone. It includes many other elements as will be seen by a comparison of the bases of competition between the mills of New England and those of the south.

The president, evidently as a result, cancelled his proposed visit to Indianapolis on his western trip and the standput leaders, such as Dalzell of Pennsylvania, Payno and Aldrich, are furious at the result. The action of the Indiana republicans may be but a straw that shows how the political wind is blowing out that way. The president is being very carnestly urged to reconsider his decision not to visit Indianapolis and may relent under pressure.

the Union Pacific Merger **Entered Into Today**

NEW YORK, April 2.—Final stages of the long drawn out proceedings in the Union Pacifle merger were entered into today. With the filing by the government of various statistics the taking of testimony in its suit to dissolve the Union Pacifle Southern Pacifle merger was completed.

When the government rested its case Sylvester G. Williams, the federal examiner who has heard the testimony turned to counsel for the rational companies involved. They amounced that the defense also rested, thus closing the hearings in the memorable action, the papers in which were filed in Sait lake City on January 28, 1908, and in which the taking of testimony has been in apogaes for more than a year. The hearings have been held by Mr. Williams in Sait Lake City, Denver, San Francisco, Portland, Orea, St. Paul, Washington and in this city. Counsel for the defense reserved the right to file a corrected statement or to make corrections in figures presented. The printing of the record will not be completed for several days. Mr. Williams will file his report with the United States circuit count at Sait Lake City where the time and place for the holdings of the argument will be determined.

A NAVAL MAGAZINE

BOSTON, April 8.—The establishment of a naval magazine in the upper waters of Weymouth Back river which was strongly opposed by the citizens of Hingham and Weymouth has struck another snag in the lack of width in the draw of a bridge a short distance from the site.

The bridge is an old one and the navy department wants it rebuilt with a fifty-foot draw in place of the 25-foot one which now is there. The neighboring towns will have to pay the greater part of the expense, and their attorneys told Lieutenant Colonel Burr of the war department today that a new bridge was unnecessary, as there are scarcely any sizable vessels using it.

If the war department finds a new bridge necessary the navy department will ask Massachusetts to build one. .

RAILROAD STATION, VIEW OF VIENNA AND EMPEROR FRANCIS JOSEPH

The fourth annual banquet and re-union of the Home club was held last evening in the Richardson hotel and was a jolly affair, nearly all of the numbers showing up while those who couldn't come wrote, and all were there in spirit. The banquet was served in the large banquet bail and Landlord Cuehling provided an excellent menu. During the feast there were songs by James E. Donnelly, who gave his celebrated Harry Lauder specialty, and "Bill" Fenton, and songs and rendings by John X. Payne of the Y. M. C. I. minstrels. At each plate was a pamphlet containing the words of several popular songs and there was "congregational" singing led by Deacon Buckley at the plane. A brief husiness session was held with President Chas. Cale in the chair. The reports of Scc. couldn't come wrote, and all were there gational" singing led by Deacon Buckley at the plane. To Take Part in Reception to Fr. Smith

Rev. Denis Sullivan, O. M. I., chaplain of the O. M. I. Cadets, has called a meeting of the Cadets for 7.30 this evening. At this meeting arrangements will be made to take part in the reception and parade that will be tendered to Very Rev T. Wade Smith, O. M. I., who was recently appointed provincial of the Oblate Order. Father Smith is expected home from Buffalo next Monday night and the people of the Sacred Heart parish as well as his many friends throughout the city have planned to make the occasion a memorable one. The O. M. I. Cadets will turn out with full ranks and will act as escort to the new provincial. Father Smith has always been a most ardent supporter of the Cadets and it is for this reason that Father Sullivan and the young soldiers are anxious to pay tribute and honor to the new head of the Oblate Order in this province. Fr. lain of the O. M. I. Cadets, has called

The committee on accounts met last night for the purpose of approving bills. Bills including the auto fire patrol bill were approved. The only bill held up was that of W. C. Hinckley for electrical work.

The sewer committee went on a tour of inspection this afternoon and will give a public hearing on petitions this evening.

There have been several complaints of late relative to the rolly condition of city water. It has been explained that the disturbance is due to the street sprinkler supply. The filling of the earts from the hydrants on street mains is productive of an unusual pressure which stirs up the sediment in the pipes. There will be a general blowing off of street mains between one and five o'clock on Sunday.

The Coming

One does well to beware of temporary fads. But everyone realizes that the extensive use of electricity in recent years is no fad. It is spreading by leaps and bounds. Owners of houses forestall the growing demand. Wire your houses this vear.

The board of police will next week make a tour of inspection of the various places where applications have been made for liquor licenses, and either during the latter part of the week or the first part of the following week licenses will be granted.

Undoubtedly the board would have advertised the applications much earlier and also granted the licenses but for the fact that the "Bar and Bottle Bill" before the legislature at the present time will have considerable effect on the licenses if it is adopted.

It will take at least two days, and in all probability three days, to visit all the saloons, and after the places have been viewed it will take several days to consider the applications. According to the law licenses cannot be granted until at least ten secular days from the time of advertising have passed

MYRON L. CASE INDICTED

TOLEDO, O., April 8.-Myron L. Case, president of the Imperial Window Glass Co., indicted yesterday at Pittsburg by a federal grand jury on the charge of violating the Sherman anti-trust laws, made the following statement to the Blade today from his home in Bowling Green, O.:

"The charge made against us that we have been in a conspiracy in restraint of the hand-blown window glass trade is untrue as are the other two charges of illegal competition and monopolization of inter-state trade.

"We have not raised the prices of window glass 50 or 60 per cent. as reported but only about 25 per cent., and we were justified in doing this since we have raised the wages of the men 23 per cent. We do not have an agreement with the American Window Glass Co. or any other concern.

"There are eleven factories in the country that were not taken into the Imperial Window Glass Co. but I don't think they had anything to do with the investigation, because the organization of our company helped to give stability to the trade and our existence was a good thing for them as well as for the concerns we absorbed."

BATTLING NELSON

WAS KNOCKED OUT BY A JURY YESTERDAY

YESTERDAY

PHILADELPHIA, April 8.—Battling Nelson, the former lightwelght champion of the world, lost another fight yesterday when he was knocked out in three minutes by a jury in the United States circuit court, which decided against him in his suit for \$10,-600 damages against the Bellevue-Stratford hotel for refusing him accommodations. The trial began Wednesday and it took the jury only 138 seconds to find the verdict for the hotel.

Counsel for the hotel in examination told Nelson that he had persistently violated the laws of some states by fighting, and he replied that they were boxing exhibitions. The only real prize fight he was ever engaged in, he said, came off in Nevada, where there was no state law against the sport.

Judge Helland, in his charge to the jury, said that if Nelson had violated the laws of any state which prohibited prize fighting, then under the law he was undesirable as a guest.

ADDRESSED MEN OF ROUND TABLE AT BAPTIST CHURCH

The Men of the Round Table of the First Baptist church held their annual meeting and final session in the church vestry last night. Suppor was served by the Ladies' Benevolent society, under the direction of Mrs, F. J. Flemings. Rev. Smith Baker, D. D., pastor emeritus of the First Congregational church, was the principal speaker of the evening.

Speaking of social life in the churches he said that not so many years ago it was considered wrong to have suppers in the vestries.

in the vestries.

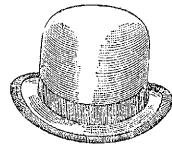

And such gatherings as those of hodies of men where things apart from church life were discussed were looked upon as being beyond all limits of good form. But the social life or the church was of vast importance, he declared, Haptists didn't need talking to so much on the matter as did Congregationalists. He apole of the cold church, of the cold congregation which did not give to strangers a welcome and said that it had been his experience that churches as a rule were warm, but that excusionally a church like an individual would fall to show cordiality.

President Tuttle after hearing their grievance explained present conditions

Vice President James O'Sullivan acted as spokesman for the delegation and presented cach speaker in turn to Mr. Tuttle, who listened attentively to all that was said, at times interjecting questions and comments. After the delegation had presented its case, President talked for some 15 or more minutes on the problems of the Boston & Maine railroad as they affected the freight traffic of the Merrimack valley, and how the officials of the road intended to solve them.

The Conference Corned men representing the boards of trade of Lowell, Lawrence, Haverbill, Salem and Nashua and Manchester, N. H., held a conference with Pres. Lucius Tuttle of the Boston & Maine railroad,

Tuttle of the Boston & Maine railroad, at the latter's office in the North slation, Boston, yesterday relative to freight transportation in the cities of the Merrimack Valley.

President Tuttle after hearing their grievance explained present conditions and stated that the best way to remedy defects in the system was by personal and individual solicitation to him alone and not through a delegation offering generalities rather than dates and facts. Pres. Tuttle also stated that the road was at the present time enlarging its freight facilities at the Boston yards by the erection of a the Boston yards by the erection of a new freight house for the sole han-dling of southern division freight. He

The delegation was unminous in the statement that the transportation of freight between Boston and points in the Merrimack valley, especially outward bound freight, was unsatisfactory. Delegates from Manchester and Nashua complained of the service between those cities and points in Connecticut and New York city, though they admitted that in some things the service had been improved.

The delegates from Salem complained of through tradic by rail or by boat and rail, between Salem and New York. The freight bound for Salem and Haverhill had been delayed frequently, they claimed.

No remedy was suggested by the dling of southern division freight. He assured the delegation that their complaints would be taken up at once and remedled in so far as they lay in the power of the road to do so. He also promised the Lowell delegation that he would personally look into the matter of replacing the Western avenue and Thorndike street freight houses with one large freight centre for the handling of local trafile. for the handling of local traffic.

for the handling of local traille.

The conference was arranged through the efforts of Sec. McKenna of the beard of trade and the delegation consisted of three men from each of the cities interested, James O'Suilivan, Fred C. VIGOROUS

Once and for all I wish to deny the baseless, unwarranted rumor that has spread throughout New England during the past few days. This concern has absolutely no connection with the Standard Oil Co. The name MITCHELL THE TAILOR is not another name for the Standard Oil Co. The Standard Oil Co. does not control this business; it does not control part of the business; it does not control one dollar's worth of the business.

Nor is my chain of stores in New England's principal cities directly, indirectly or remotely connected with, or related to, any chain of drug stores, cigar stores or restaurants by any system of finance, management or business arrangement. Now we ought not to hear any more talk about the Standard Oil owning the Mitchell The Tailor, chain of stores.

While the superintendent was going from one building to another it is alleged that Massuzza ran up behind him and drawing a large dirk knife said that he would treat the superintendent as all Italians did their enemies if he were not given a place in the mill.

intes if he were not given a place in the mill.

Supt. Bickford grappled with the man and with the assistance of another employe succeeded in setting him out of the yard, but a few minutes later the man returned and for a second time threatened the superintendent. It is said that the defendant drew the knife out of his peket but before he was able to open the blade several of the yard lands jumped on him and held him until Officer Cuillian, who had been notified, arrived on the scene. Officer Cuillian after placing the man under arrest asked the defendant if he had a knife and the latter produced the dirk, but he denica that he had attempted to use it.

Several witnesses corroberated in part the testimony effered by Supt. Bickford.

Massuzza, testifying in his own be-Missizza, testifying in his own be-built, said that he had been employed at the Wood mill in Lawrence, but when work down there got slack he came to this city and later went to collineville anticipating some vacan-cies. Stein-Bloch

The Standard in Men's Clothes. "55 Years of Knowing How" is the Reason::::::

A little over a year ago, when we were placing our orders for clothes for the "Smart Clothes Shop," we visited the factory in Rochester where Stein-Bloch Clothes are made.

We had never sold Stein-Bloch Clothes. We had seen some, and knew the line by reputation as the most quoted line in the country, but we didn't know it intimately, and we had to be

We WERE shown. We spent about an hour in the factory, and it was an education. Stein-Bloch supremacy was expressed to us in their catch phrase "55 years of knowing how."

That phrase told the whole story. Their near-perfection was not the result of a few years attaining, nor of exceptional genius or ability, but of careful, painstaking, consistent effort for over half a century. Because Stein-Bloch were the pioneers in the making of good ready-to-wear, and because they have been ever watchful and alert to keep up the standard, they are still at

We placed our orders with confidence. We were going to give the Lowell public a higher standard of clothes making than they had had, but to which we felt they were entitled and for which they would have to pay no more.

We've summered and wintered with Stein-Bloch clothes since then, and can talk with confidence, and while we don't claim perfection for Stein-Bloch and will allow the good points of other makers, we will say that, in our judgment, for high character and uniformly good tailoring Stein-Bloch's are the world's best ready-to-wear clothes.

The new Spring fabrics and colors are so different from last year, you can hardly get by with your old suit.

This is the time of season when the best choice of fabrics can be had. If you're particular come this week. There are some specially good numbers from which you can make a good

mall box and start looking over the letters, he claims.

The loxes lock with a combination and the owners had been in the habit of leaving their boxes unlocked rather than work the combination, which gave the boys easy access.

Their alleged confession brought out the fact that they opened the letters in search of money, which if they found they kept, but if they found checks they threw them in the river.

Mounted Officer Saved Woman's Life

BOSTON, April 8.—Riding at top speed and leaning far out of his sud-dle, Mounted Officer Comerford of the Back Bay police station stopped a runaway horse at Brookline avenue and Audubon road early last night just before the animal reached a spot where an aged woman was standing. The horse had run for over a mile through the parkway, sending pedestrians and drivers of carriages and automobiles

hurrying out of its way.

John T. Scully of 70 Burlington avenue was driving on Huntington avenue near the entrance to the park, when the horse hitched to his democrat wagon took fright. Scully was thrown out, and the horse dushed away.

wagon took Iright, scully was thrown out, and the horse dashed away.

For nearly a quarter of a mile Comerford raced his sadde horse. Each time he got along side the runaway that animal leaped to one side and put on more speed. Twice Comerford iried to reach the rein and each time he falled. As he neared Brookline avenue he saw an aged woman standing in the middle of the street awaiting a car with her back turned. He mut more speed into his galloping horse and made one more try at getting the runaway.

Disensaging one foot from the stirrup he leaned far out of the saddle, got the rein and with the skill of a cavalryman, drew on his own animal and at the same time put the reverse

and at the same time put the reverse on the runaway.

"Child Actor" Bill

Senator Teeling opened the debate on the "child actor" bill for the adverse a vote on the income tax amendment report of the committee on judiciary to the United States constitution, and He said he desired to get the bill be-

to the United States constitution, and by a strict party vote voted ought not to pass on the resolve submitting the amendment.

The committee is made up of 11 members—three senators and eight representatives. The democratic members are Messrs, M. F. O'frien of Boston and Arseneault of Spencer. These two members dissent, Dennis E. Farley of Erving is the senate chairman of the committee, and Charles H. Brown of Medford is the house chairman.

The report caused no surprise when it came into the house.

After a spirited dehate in the house performances, but simply to give children the opportunity of taking walking and speaking parts, simple dialogues, and with all due deficience to Harvard he saw no harm, but much good, for the child in the bill.

Senator Evans of Everett opposed the bill, saying it had been very carefully considered by the committee, and quoting President Eventual Ellot of Harvard as declaring the bill is an evasion of the clill labor law. He stated that Bishop Lawrence opposed the bill. He said that it was not desired to change the bill, are prohibiting the use of children the opportunity of taking walking and speaking parts, simple dialogues, and with all due deficience to Harvard he saw no harm, but much good, for the child in the bill.

Senator Evans of Everett objects the bill, sexing it had been very carefully considered by the committee, and quoting President Event well. He was not declaring the bill is an evasion of the clill labor law. He stated that Bishop Lawrence opposed the bill. He said the senate for discussion.

posing this bill were going too far away from the purpose of the bill. It does not affect child labor; it is a different type of employment altogether. This bill would not be here, he said, but for the ruling of the supreme court in a case in 1905, where the court ruled that the law did conflict with the child labor statute. He cited the recent Newton case of a little gril, daughter of an alderman, who was the recent Accion case of a mice and daughter of an alderman, who was forbidden by the state police to take part in anneuer theatricals of her church society, because she was 14 years of any

part in annateur theatricals or ner church society, because she was 14 years of age.

Senator Mahoney of Holyoke asked the senator if he knew of any clergy-man speaking for the bill. Senator Tecting said that Bishop Lawrence and Pres. Eliot were the only ones who opposed the bill why might be so termed. But if the Newton incident had occurred last year there would have been a bill in here to revise this law. This was no inroad into the child labor law.

the committee on matropolitan affairs reported leave to withdraw on the Bennett bill to consolidate the various metropolitan commissions into a single metropolitan board.

metropolitan commissions into a single metropolitan board.

Education reported ought to pass on a bill to increase the powers of cittes and towns with respect to playgrounds. Water supply reported a hill to incorporate the Norton water company. Public health reported a new draft of the bill to require the state board of health to make analyses of drugs, poisons, medicines and chemicals if satisfied that such analyses are to be used for enforcement of law. The new draft applies only to drugs and poisons. The bill relative to the labeling of concentrated milk and to the pasteurization of milk were assigned for Wednesday next.

Mr. Mildram of Beston moved to substitute for an adverse report a bill prohibiting public schibilions of indecent statues of the human form. Mr. Holdbs of Worcester said the bill is unnecessary, because the only place where statues are exposed is the Boston ari museum and there the regulations are such as to prevent injury to the morals of the young. Representative C. L. Carr of Boston favored the bill, agreeing to offer an amendment to make it prevent exhibitions to children 16 years of age or under. Substitution was defeated, however, on a rising yout, if to 64, and a roll call was refused, and Mr. Mildram gave notice of a motion to reconsider today.

The committee on education reported

Extraordinary Sale of 42 Car Loads Of

Furniture, Ranges and Carpetings

BANKRUPT STOCK

J. Brest Co. Inc., of Brockton, Mass. OPENS TOMORROW AT 9

This company had a capital of \$40,000 and carried a stock second to none in Brockton.

The buying of this entire stock was undoubtedly one of the largest purchases ever carried through by a local firm. We had a tremendous four weeks' sale in Brockton, closing with a two days' auction sale, at which we cleaned out all undesirable goods, so that the 4 1-2 car loads we shipped to Lowell were mostly goods that had never been unpacked and are fresh, clean and up-to-date. We bought this stock for over \$8,000 less than the regular wholesale cost price. So that we can and will sell everything in this stock. Parlor Suits, Fancy Chairs and Rockers, Parlor Tables, Sideboards, Buffets, Extension Tables, Dining Chairs, Brass and Iron Beds, Springs and Mattresses, Pillows, Magee Ranges, Art Squares, Rugs, Linoleum, Mattings, Carpet Sweepers, Wringers, Clocks, Baby Carriages, Go-Carts, etc.

25 to 33¹ Per Cent. Less Than Regular Prices

This was a fortunate purchase for you as well as ourselves. What the creditors lost we will divide with you, making a great saving for you and a good profit for ourselves. There is one thing we want to say here—you will have to be patient with us at this sale, as having purchased our spring stock previous to buying this Bankrupt stock, our store is overcrowded and we shall not be able to show a tenth part of the stock at one time, but we will take goods out of the storehouse as fast as you will buy it. There is plenty of it, but at the price we shall sell, it won't stay long on our floor. And once sold, we or no other dealer can sell you housekeeping goods that we pay full price for, at less than one-quarter to one-third more than we can sell this Bankrupt Stock, so don't delay. First come gets first choice.

The missionaries in order to inspire confidence and love in the people, adopt the mative dress and mode of wearing the hair and beard, so as to look as much as possible like their own. The lecturer showed an amusing transformation of a young American priest in two years' time from a clean-shaven, clear-cut American youth to a dignified bearded mandarin.

In concluding, the lecturer said that all the missionaries might not be martyrs in the actual sense of the word, but that they were certainly worthy of that title if the long heroism of their lives were considered.

The lecture was divided in three parts. Between the pants, some young pupils of the school entertained the audionce very delightfully. Leo Lesieur, a lad with a wonderful voice,

HOW TO CURE A TERRIFIC HEADACHE

Many people suffer with an aching head week after week, occasionally getting relief from so-called headache powders and nerve stupefying drugs. They never get cured because they start wrong. Such people should do a little commonsense thinking. should do a little commonsense tunking. Headache is simply the result, a warning signal, of a far more serious trouble. Usually it means bad blood poisoned by an inactive or sluggish liver. Headache sufferers are often nervous, cross and irritable. Their sleep is disturbed and digestion impaired. The liver doesn't do its work right, and the liver doesn't do its work right, and the bile elements poison both nerve

and brain.

Smith's Pineapple and Butternut Pills remove the cause of headache. They are Nature's true laxative, and give tone to liver activity, area positive specific for biliousness and a torpid liver. Get your liver right by using Smith's Pineapple and But-ternat Pills and your head won't ache, your nerves won't weaken, nor your food distress you. Physicians use and recom-mend. They form no habit. LATEST KILLED IN WRECK

Freights in Collision Were Hit by Express

ROME, April 8.—One trainhand was littled in a complicated wreck near here early today. While a westbound freight train on track number 3 of the New York Central railroad was taking water at the plug about three miles east of this city, the shifting engine from Utlca came up behind and stood rwalling. Within a few moments and the westbound freight came along ond ran into the light engine which in turn was sent crashing into the forward freight. Just at this moment the western New York express number 23, also westbound, came upon track number 2 and side-swiped the wreck.

Michael Basseft, the fireman on the light engine who was out on the running board oiling the engine was caught in the wreck and killed. The engine of the passenger train was wrecked. The bassanger train struck the bridge tower, nearly demolishing it.—All four tracks were holeded. The wreckage took fire but the writesian New York express number 2 and side-swiped the wreck.

BURGLARS BROKE INTO

NEW YORK, April 8.—Burglars in Singue, N. J., last night took no chances of their safe-blowing operations being interrupted in a thickly settled neighborhood. They broke into the general store of E. L. Klotz, hauled his safe containing \$200 in cash out on a platform in the rear, backed up one of the store-keeper's own wagons and removed the heavy object to the secluded corner of a lumber yard. There they drilled the safe at their leisure and blew it to pieces with charges of dynamite without anyone being the wiser until today. The burglars got away with the cash and so far have not been traced.

The speaker also referred to the practice in the Metropolitan district towns and cities of permitting men to develop their own tracts of land without reference to the chance for other development in the vicinity. Streets are laid out with no idea of ever connecting with other streets and the result is an impossible maze of disjointed connections which impair the chance for properly developed airest systems. The speaker in conclusion showed a mouber of pictures of civic contres. CHILDREN'S SHOES

The Buster Brown Shoe is the proper foot appared for nicely dressed boys and girls. There is quality in them that is not found in the ordinary kind of shoes—quality that is appreciated more by those who have always hought other makes before. Try them for the next shoes for the boy or girl. Styles are of the broad sensible shape in patent leather, girl metal and Russian calf, blueber and button boots and blueher exfords. Irices \$1.75 and \$2.00, according to size.

MILLINERY

There's no use talking, we would not be having the most particular women in Lowell coming here for their new hats if we were not showing something better than the ordinary. We have said all along that the hats from our workroom were equal to any from the New York milliners. We are copying Parisian models and improving on them, too. That's why we are so busy in our millinery department. Over 500 hats to choose from, all ready to wear, and this week's display is more beautiful than ever. .

PANAMA HATS

We have just opened a lot of genuine imported Panama hats that came to us at an exceptionally low price, in fact we are able to turn them over to you at a price that makes them cost you less than an ordinary sailor hat. All the trimming needed is a silk sourf or ribbor and you have an excellent summer hat. There are not half as many as we would like to have—so call early if you want one. Regularly the price would be \$1.49, but for Friday and Saturday a special price 69c

For the Little Folks

This season's Coats and Hats are particularly attractive, both in style and qualities. Our department on the second floor is showing as varied a line as was ever seen in Lowell and at prices that cannot fail to please mothers who are looking for values. There is no reason why the little miss should not be as well dressed as her big sister and she can be at no very great expense if the outfit comes from our department. These as sample values-

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

The sworn daily average circulation of The Lowell Sun for the year 1909 was

This is by far the largest average circulation of any newspaper in Lowell.

'According to the report of Bradstreets on the record of prices it appears that during the month the prices of all the leading staples was stationary and that some household necessities showed a slight decline.

Mrs. Maud Ballington Booth suggests that a small bell be fastened by a ribbon to the neck of the house cat to give warning of the feline's approach to the thrushes, the robbins and other birds that add to the life and attractiveness of our gardens. That might save the birds but it would also save the mice and an occasional rat.

VAHEY OR FOSS.

Mayor Fitzgerald of Besten comes out flatly in favor of Foss for governor as opposed to Vabey. He says and very truly that the party is bigger than any man and that no man for selfish reasons should jeopardize the party chances of victory, for a democratic victory in Massachusetts this year will mean much to the country at large. The people, however, will decide whether they want Valley or Foss if the latter consents to be a candidate, which at this time is by no means certain.

DATE OF ASSESSMENT APRIL I.

The residents of Lowell and other Massachusetts cities will do well to remember that the assessors this year started work on April 1, instead of May 1 as in former years. It will, therefore, behoove those who wish to be sure of assessment to notify the assessors of their whereabouts this month. Voters will be registered on their residence on April I instead of May 1, and from that date also the tax for personal and other preperty will date.

If voters would cooperate with the assessors there would not be so many names dropped from the list nor so much work afterwards for the politicians and the board of registrars.

PREMIER ASQUITH'S POLICY.

Premier Asquith of England has outlined a policy which seems to have united the various sections of his coalition ministry and has guaranteed him continuous support for several months to come. The resolutions against the veto of the house of lords have apparently pleased the home rulers, the labor party and the liberals. A motion to amend the resolutions was defeated by a majority of 106 which shows that the ministry has a loyal majority sufficiently large to insure its continuance in power for some time.

One of the great mistakes apparently that the ministry has made was to attack the royal prerogative or the veto of the sovereign. However the parties may feel in regard to the veto of the lords they have no intention of attacking the veto of the sovereign which the premier says is as dead as Queen Anne. That is true but the British people are nevertheless very jealous of any attack or attempt to minimize the powers of the sovereign. They want the king to possess the royal prerogative that has been handed down from his predecessors, and they will not countenance any movement to minimize his power. It is, therefore, rather unfortunate that Premier Asquith has attempted to attack the royal veto. It seems to be a matter that will weaken his power with the country at large and will undoubtedly assist the lords in their buttle with the commons. If as Asquith says the veto is dead why bother about it? Why invite a widening of the quarrel in which the outcome is still uncertain? Why should be disturb a quiescent foc at a time when he has all he can do to handle the forces arrayed against him?

SIGNS OF REPUBLICAN REVOLT.

The republican party of Indiana may be ranked as having joined the republican insurgents inasmuch as it has given very grave offence to the national leaders on account of having held a state convention and adjourned without endorsing the Payne-Aldrich tariff law.

So far from endorsing the new tariff law, the spellbinders of the convention actually criticized it. Senator Beveridge, speaking of the increase in the cotton schedule, said, "for an increase of duties on cotton cloth, the higher grades of which are used as clothing by every man, woman and child, rich or poor, throughout the whole republic, I could not stand for that without evidence; and when the manufacturers themselves formally declared before the house committee that their business was thriving, their labor employed and that all they asked was that the fariff on cotton should not be decreased. I stood against those increases on cotton goods when the schedule was voted on; I stood against them when the bill was passed and I stand against them now."

Was it any wonder ofter such an appeal that the convention made the following declaration on the tariff:-

"We believe in a protective tariff, measured by the difference between the cost of production here and abroad. Less than this is unjust to American laborers; more is unjust to American consumers. That difference should be ascertained with the utmost speed and the present law modified accordingly."

This does not necessarily mean the difference in labor cost alone. It Includes many other elements as will be seen by a comparison of the bases of competition between the mills of New England and those of the south.

The president, evidently as a result, cancelled his proposed visit to Indianapolis on his western trip and the standput leaders, such as Dalzell of Pennsylvania, Payno and Aldrich, are furious at the result. The action of the Indiana republicans may be but a straw that shows how the political wind is blowing out that way. The president is being very carnestly urged to reconsider his decision not to visit Indianapolis and may relent under pressuro.

CARGO OF OIL

BLOCK ISLAND,

ON THE BARGE SABINE COULD NOT BE SAVED

The heavy surf which has been rolling n on the Standard oil barge Sabine since that vessel and the tug Security went ashore on Southwest point of here during a heavy fog Wednesday, has made it unsafe to attempt to save the cargo of oil aboard and today the vessel's crew covered the surf for five miles up and down the coast with the oil. With the Sabine thus lightened an attempt will be made at high tide today by two Standard oil tugs to release her from the rocks on which she has been pounding for the last 48 hours. If successful, temporary repairs will be made here, prior to her being towed to New York.

The combined strength of three tugs at high tide last night was sufficient to float the tug Security and early today in tow of the Standard oil tug number 16, she left here for New York, where repairs will be made. has made it unsafe to attempt to save

WAR NOT EXPECTED

ECUADOR AND PERU MAY SET-TLE TROUBLES

LONDON, April 8 .- Henry Williams, confidential agent of the government of Ecuador who is now in London received today the following cablegram from President Alfaro of Ecuador;

"The turbulent manifestations at Quite and Lima in no manner interpret the sentiment of the majority in the two countries nor the intentions of the two countries for the intentions of the respective governments. The differences have been submitted for diplomatic action which is directed to avoid war. Negotiations have been initiated for a direct settlement through mediation by the United States government. The commissioners will meet in Wash-Inston.

Mr. Williams thinks that it may be confidently assumed that there is not the least probability of Ecuador and Peru going to war over their boundary dispute.

A NAVAL MAGAZINE

BOSTON, April 8.—The establishment of a naval magazine in the upper vaters of Weymouth Back river which was strongly opposed by the citizens of Hingham and Weymouth has struck another enag in the lack of width in the draw of a bridge a short distance from the site.

The bridge is an old one and the navy department wants it rebuilt with a fifty-foot draw in place of the 25-foot one which now is there. The neighboring towns will have to pay the greater part of the expense, and their attorneys told Lieutenant Colonel Burr of the war department today that a new bridge was unnecessary, as there are scarcely any sizable vessels using it.

If the war department finds a new bridge necessary the navy department will ask Massachusetts to build one.

ANNUAL REUNION

Of the Jolly Home Club Last Evening

The fourth annual banquet and reunion of the Home club was held last evening in the Richardson hotel and was a jolly affair, nearly all of the members showing up while those who couldn't come wrote, and all were there in spirit. The banquet was screed in the lurge banquet hall and Landlord Cushing provided an excellent menu. During the feast there were songs by James E. Donnelly, who gave his celebrated Harry Lauder specialty, and "Bill" Fentom, and songs and readings James E. Donnelly, who gave hits celcherated Harry Lauder specialty, and "Bill" Fenton, and songs and readings by John X. Payne of the Y. M. C. I. Inlinstrels. At each plate was a pamphlet containing file words of several popular songs and there was "congregational" singing led by Deacon Buckley at the piano. A brief business session was held with President Chas. Gale in the chair. The reports of Sec. John Buckley and Treasurer Alex Abels were read and accepted. Letters of regret were read from C. W. Lawson of Boston; Ed. N. Leighton of Wobern and Millon Wright of Butler, Pa. The election of officers resulted in the choice of Frank J. Sherwood, president; John Buckley, sec., and Alex Abels, treasurer. After the meeting the members of the ciub. To Take Part In Reception to Fr. Smith

Rev. Denis Sullivan, O. M. L. chaplain of the O. M. I. Cadets, has called a meeting of the Cadets for 7.30 this evening. At this meeting arrangements will be made to take part in the reception and parado that will be tendered to Very Rev T. Wade Smith. O. M. I., who was recently appointed provincial of the Oblate Order. Father Smith is expected home from Buffulo next Monday night and the people of the Sacred Heart parish as well as his many friends throughout the city have planned to make the occasion a memorable one. The O. M. I. Cadets will turn out with full ranks and will act as escort to the new provincial, Father Smith has always been a most ardent supporter of the Cadets and it is for this reason that Father Sullivan and the young soldiers are anxious to pay tribute and honor to the new head of the Oblate Order in this province. Fr. lain of the O. M. L. Cadets, has called

Tomorrow Afternoon at 2.30 O'Clock MAMMOTH LAND SALE AT PUBLIC AUCTION OF TWENTY-ONE (21) HOUSE LOTS

in the Lowell Highlands. The streets are all graded, have best of sewerage, 🛭 🧸 sidewalks, curbings, water, and are extremely well lighted. Within five minutes' walk of three schools, within three minutes' walk of two lines of ears and close to a number of churches, including the new Cathelic church soon to be erected on Stevens' street. Best of neighbors. Twenty-two pretty homes already built. There are a number of the choicest lots left averaging from 4000 to 10,000 feet each, and seven or eight are very nice corner lots, and they will be sold for just what they will bring. They are $|\pmb{\sharp}|$ situated on high and dry land and are located on Lura, Wedge, Ruth, Atantic, Fairfield, Rhodora and Parker streets. When you are out for a walk or drive look the premises over. You will find the lots all that could be desired, and the air is pure as if you were five miles out in the country. The sale will be absolute and my loss will be your gain.

Terms:-\$50 to be paid to the auctioneer on each lot as soon as struck off.
